

Lavender Bulbs & Wands

REQUIREMENTS:

Lavender flowers

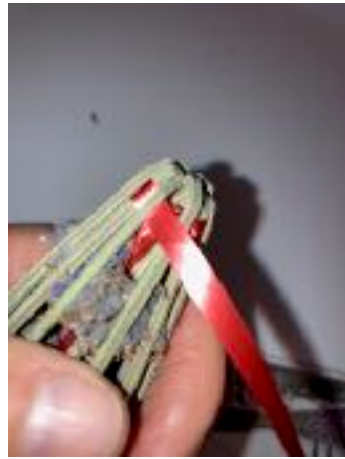

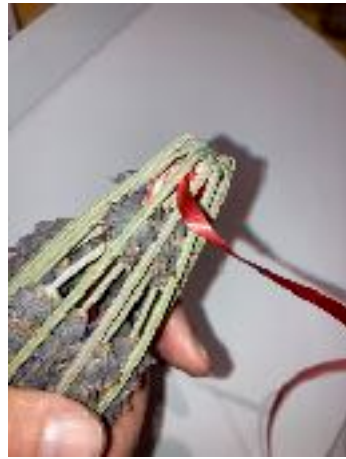

For the spiral weave used in Lavender Wands & Bulbs an odd number of long lavender stems is required. For this tutorial we use 11 stems for Wands, and 15 stems for Bulbs.

Ribbons

Narrow 3mm to 4mm wide ribbons in silk or polyester work well. Polyester is a little easier to weave, is less likely to fold and much easier to get.

Apart from scissors and tweezers that's about it!

Lavender Bulbs

Lavender Wands
